WELDING
SOCIETY

JANUARY 1932
Vol. 11 No. 1

INDEX TO VOLUME 10

1931

Published by the
AMERICAN WELDING SOCIETY, 33 WEST 39TH STREET
NEW YORK, N. Y.

INDEX TO SUBJECTS

Alloy Welding—Richard Tull, June, pp. 35–39.
Arc Spark Test for Metals—C. J. Holslag, March, pp. 37–38.
Atomic Hydrogen Arc Welds in Alloy Steels—Frederick Ray, May, pp. 41–45. Discussion, July, pp. 21–25.
Automatic Arc Welding in the Electrical Industry—G. H. Koch, March, pp. 18–21.
Automatic Gas Welding, Semi—T. W. Greene, Oct., pp. 19–21.
Automobile Welding, Windshield Frames—J. P. Waters, June, p. 10.
Bronze Welding of Galvanized Steel, H. F. Reinhard, Oct., pp. 5–8. Discussion, Dec., pp. 22–23.
Building Construction—Code for Fusion Welding and Gas Cutting in—Jan., pp. 33–41.
Cast Iron Pipe Welding—T. W. Greene, July, pp. 30–33.
Cast Iron Welds—Fatigue Tests—Nov., pp. 42–43.
Concrete Reinforcement Welded—Nov., pp. 42–43.
Copper Alloy Pressure Vessels—Welding of—M. Powell and I. T. Hook, Sept., pp. 39–47. Discussion, Dec., pp. 35–37.
Copper Alloys Welding—I. T. Hook, April, pp. 31–37. Discussion, July, pp. 21–22.
Copper and Brass Piping—De W. Endicott, July, pp. 26–29.
Copper and Brass Piping—H. V. Inskeep, Oct., pp. 21–24. Discussion, Dec., pp. 28–29.
Copper Welding Solves Refinery Problem—D. R. Pratt, Aug., pp. 12–13.
Cutting—Automatic Gas—R. F. Helmkamp, Sept., pp. 36–38. Discussion, Dec., pp. 11–12.
Cutting—Tests on Flame-Cut Wind Connections—Otis E. Hovey, June, pp. 24–25.
Cutting Underwater—Discussion—Dec., p. 37.
Fatigue Properties of Welds—R. A. Weinman, Oct., pp. 12–18. Discussion, Dec., pp. 23–24.
Fatigue Tests of Cast Iron Welds—Nov., pp. 42–43.
Galvanized Steel, Bronze Welding of—H. F. Reinhard, Oct., pp. 5–8. Discussion, Dec., pp. 22–23.
Hard Facing in Industrial Fields—W. A. Wissler and A. V. Harris, Feb., pp. 17–20.
Highway—Welded Experimental Metal Base Roadway—De W. Endicott, May, pp. 15–16.
Inspection of Welding—R. Kraus, June, pp. 18–21.
Lead Welding—Owen C. Jones, Nov., pp. 41–42.
Machinery Construction Versus Castings—P. J. Horgan, Sept., pp. 17–18. Discussion, Dec., pp. 17–19.
Machinery Welding—All-Welded Rolled Steel Gear Blank—G. D. Spackman, July, p. 25.
Machinery Welding—Frame for Astronomical Telescope—A. F. Davis, Nov., p. 8.
Machinery Welding—Punch Press—Everett Chapman, Nov., pp. 43–44.
Maintenance Welding in Steel Plants—E. L. Quinn, June, pp. 6–10.
Manganese Steel Welding—A. F. Davis, Dec., pp. 51–52.
Manganese Steel Welding—C. J. Holslag, A. Churchward, O. A. Tilton, A. M. Candy—May, pp. 24–26.
Monel Metal and Pure Malleable Nickel Welding—British Practice—N. C. Marples, March, pp. 14–17.
Motorcycle Production Welding—V. H. Van Diver, March, p. 39.
Nickel Steel Welding—T. K. McManus, Jan., pp. 16–19.
Non-Ferrous Metals—Large Welded Everdur Pressure Vessels—M. Powell and I. T. Hook, Sept., pp. 39–47. Discussion, Dec., pp. 35–37.
Non-Ferrous Metal Welding—Copper Alloys—I. T. Hook, April, pp. 31–37. Discussion, July, pp. 21–22.
Non-Ferrous Metal Welding—Monel and Malleable Nickel—N. C. Marples, March, pp. 14–17.
Non-Ferrous Welding—Alloys—Richard Tull, June, pp. 35–39.
Non-Ferrous Welding—Copper—D. R. Pratt, Aug., pp. 12–13.
Ornamental Iron Work in Demand—R. W. Boggs, April, p. 37.
Pipe—Design for Welding—A. G. Wikoff, May, pp. 26–28.
Pipe Lines—Success of Oxy-Acetylene Welded—G. O. Carter and T. W. Greene, March, pp. 21–24.
Pipe Line Repairs—V. H. Van Diver, July, p. 43.
Pipe Specials—Fabrication of—Owen C. Jones, Aug., p. 13.
Pipe Welding by Resistance Process—J. S. Adelson and L. B. Grindlay, Nov., pp. 9–13.
Pipe Welding in the Heating and Plumbing Industry—J. H. Zink, May, pp. 21–22.
Pipe Welding—A New Process—T. W. Greene, Oct., pp. 19–21.
Pipe Welding—Brass and Copper—De W. Endicott, July, pp. 26–29.
Pipe Welding—Cast Iron—T. W. Greene, July, pp. 30–35.
Pipe Welding—Copper and Brass—H. V. Inskeep, Oct., pp. 21–24. Discussion, Dec., pp. 28–29.
Pipe Welding—Economics of Welding in Maintenance and Operation of Gas Transmission Systems—Erick Larson, March, pp. 8–11.
Pipe Welding—Fittings in Heating Installations—F. J. Maeurer, Sept., pp. 5–13. Discussion, Dec., pp. 26–28.
Pipe Welding—Fittings—S. L. Barber, July, p. 38.
Pipe Welding—Fittings—F. S. Durham, July, p. 44.
Pipe Welding—Large Diameter Arc Welded for Water Distribution—Vincent P. Marran, Aug., pp. 5–9.
Pipe Welding—Oxy-acetylene Welding in Local Gas Transmission Distribution—L. A. Kirch, March, pp. 26–28.
Pipe Welding—732 Mile Pipe Line Welded with New Process—A. F. Davis, May, pp. 14–15.
Pipe Welding—Welding in Fabrication of—W. J. Thomas, Jan., pp. 42–44.
Piping—Oxy-Acetylene Welding of, for Speedy Installations—J. P. Waters, Feb., p. 20.
Piping—Welding in New York Hospital—Cornell Medical Clinic—C. J. Thale, Oct., pp. 43–44. Discussion, Dec., pp. 29–30.
Pressure Vessels—Fusion Welding as Applied to High Pressure Heat Exchange Apparatus—M. Powell, April, pp. 51–54.
Pressure Vessels—Light Gauge Tanks—A. S. M. E. Rulings—March, p. 17.
Pressure Vessels—Proposed Specifications for—Jan., pp. 5–10.
Pressure Vessels—Proposed Specifications for Fusion Welding of—March, pp. 11–13.
Pressure Vessels—Report of Joint Pressure Vessel Committee Investigation on Light Gauge Pressure Tanks—Feb., pp. 20–38.
Pressure Vessels—Welded Boiler Drums of the U. S. Navy Scout Cruisers—J. C. Hodge, April, pp. 11–15. Discussion, July, pp. 5–10.
Pressure Vessels—Welding of Large Everdur—M. Powell and I. T. Hook, Sept., pp. 39–47. Discussion, Dec., pp. 35–37.
Processes—Outline of Welding—F. T. Llewellyn, Feb., pp. 39–45.
Production Welding by Oxy-Acetylene Process—E. C. Booth, March, pp. 24–26.
Progress in 1930—Feb., pp. 5–10.
Rail Bonding—Present Practice—Pliney P. Pipes, Nov., pp. 44–45.
Rail Joints—Committee Report—Aug., pp. 14–43.
Railroad—Tender Underframes Lengthened by Welding—E. V. David, April, p. 42.
Railroad Shop Welding—F. Huggins, Jan., pp. 10–12.
Railroad Welding—An All-Welded Locomotive—B. S. Havens, Nov., pp. 7–8.
Railroad Welding—Pullman Builds All-Welded Hopper Cars for the C. G. W.—Nov., pp. 5–6.
Reclamation Welding and Cutting—G. W. Lieber, Jan., p. 15.
Reclamation Welding—Confining the Heat—De W. Endicott, June, p. 34.
Reclamation Welding of Lumber Chains—J. P. Waters, June, p. 34.
Resistance Welding—P. W. Fassler, May, pp. 29–35.
Resistance Welding—Four Problems Encountered in Flash Welding Mild Steel—E. R. Torgler, Sept., pp. 29–36. Discussion, Dec., pp. 15–17.
Resistance Welding Metal Fabric—W. T. Ober, Sept., pp. 50–52. Discussion, Dec., pp. 14–15.
Resistance Welding of Motor Frames—Malcolm Thomson, March, pp. 34–36.
Resistance Welding of Pipe—J. S. Adelson and L. B. Grindlay, Nov., pp. 9–13.
Resistance Welding Problems—C. L. Pfeiffer, April, pp. 5–11. Discussion, July, pp. 16–18.
Roofs—Oxy Acetylene Welding of—Owen C. Jones, Dec., pp. 50–51.
Sheet Metal Fabrication by Arc Welding—E. P. Bestler, March, pp. 5–7.
Sheet Steel Welding—Chutes—A. G. Wikoff, June, p. 17.
Ship Construction—J. Kjekstad, Sept., pp. 13–16. Discussion, Dec., pp. 12–14.
Ship Foundations Welded for Machinery—G. H. Moore, Jr., April, pp. 38–41. Discussion, July, pp. 10–13.
Ship Welding—All-Welded Auxiliary Vessels at the U. S. Navy Yard, Mare Island, Calif.—Lieut. H. A. Schade, May, pp. 23–24.
Ship Welding—Developments of Welding in Japan—T. Okamoto, July, pp. 33–37.
Ship Welding—Welded Barge—J. Mitton, Jan., pp. 47–48.
Ship Welding on the High Seas—F. J. Fitzgerald, April, p. 30.
Shipyards—Working Against Time and Cost with the Oxy-Acetylene Process—J. W. Owens, Jan., pp. 27–29.
Steel—Factors Affecting the Weldability of—W. E. Stine, Sept., pp. 22–26 Discussion, Dec., pp. 30–35.
Steel for Fusion Welding—C. R. Texter and F. N. Speller, June, pp. 21–24.
Stresses—Effect of Welding Procedure on Shrinkage Strains in Butt Welded Joints—C. H. Jennings, April, pp. 27–30. Discussion, July, pp. 18–21.
Stresses—Its Influence on Cost and Service Life of a Structure—

East Engin.

Everett Chapman, Sept., pp. 19–22. Discussion, Dec., pp. 19–22.
Stresses—Relief of Welding Strains by Annealing—C. H. Jennings, Sept., pp. 26–29. Discussion, Dec., pp. 24–26.
Structural Welding—Another Problem Solved—F. P. McKibben, Sept., pp. 47–49. Discussion, Dec., pp. 5–11.
Structural Welding—A Review of What Has Been Accomplished and Its Future—A. F. Davis, March, pp. 42–50.
Structural Welding—Bridges and Buildings—June, pp. 27–34.
Structural Welding—Committee Report—Oct., pp. 25–42; Nov., pp. 18–40; Dec., pp. 38–50. Discussion, Dec., pp. 5–11.
Structural Welding—Compressive Tests of Bases for Subway Columns—J. H. Edwards, H. L. Whittemore and A. H. Stang, Jan., pp. 20–24.
Structural Welding—Cost Data—F. P. McKibben, Feb., pp. 12–17.
Structural Welding—Discussion of A. W. S. Code—H. H. Moss, Feb., pp. 10–12.
Structural Welding—Examples of—D. C. Tennant, April, pp. 16–27. Discussion, July, pp. 13–16.
Structural Welding—Experiments on Gas Welded Structural Joints—J. R. Griffith, Jan., pp. 45–47.
Structural Welding—Eccentric Welded Connections—Odd Albert, April, pp. 43–50.
Structural Welding—Fourteen Story Office Building Field Arc Welded in Boston, Mass., Feb., pp. 10–17.
Structural Welding—Frame House Design—A. F. Davis, Aug., pp. 10–12.
Structural Welding—Impact Load Tests on Arc Welded and Riveted Beams—E. O. Paton and A. V. Diatlov, June, pp. 39–43.
Structural Welding—Inspection—R. Kraus, June, pp. 18–21.
Structural Welding—Inspection of Welded Framing—Franz Eder, Jan., pp. 12–15.
Structural Welding—New Wilson Factory Welded—March, p. 39.
Structural Welding—Notes on Application of Code for Fusion Welding and Gas Cutting in Building Construction—G. D. Fish, Jan., pp. 29–32.
Structural Welding—Rivets or Welds?—L. H. Miller, June, pp. 16–17.
Structural Welding—Some Tests of Gas Welded Structural Joints—H. H. Moss, May, pp. 36–40.
Structural Welding—Strength of Welded Shelf-Angle Connections—J. H. Edwards, H. L. Whittemore and A. H. Stang, March, pp. 29–34.
Structural Welding—Stress Distribution in Welded Steel Pedestals—J. H. Edwards, H. L. Whittemore and A. H. Stang, Feb., pp. 46–50.
Structural Welding—Tests and Examples—J. E. Ferguson, July, pp. 39–43.
Structural Welding—Tests of Flame-Cut Wind Connections—Otis E. Hovey, June, pp. 24–25.
Structural Welding—Texas Bridge Features Arc Welded Battleship Deck Floor Construction—A. F. Davis, July, p. 37.
Structural Welding—Welded Dwelling House—B. S. Havens, June, p. 26.
Structural Welding—Yale University Group of Welded Buildings—G. D. Fish, Oct., pp. 9–12. Discussion, Dec., pp. 5–11.
Structural Welding in Germany—Otto Bondy, June, pp. 11–16.
Tanks—Welded Floors of Large Oil Storage—Yue Sang Ching, Nov., p. 13.
Technique of Welding—Nov., p. 43.
Test for Welds—Standards—Committee Report—Nov., pp. 14–17.
Tests of Arc Welds—Effect of Current on Strength and Ductility—Cyril D. Jensen, Jan., pp. 25–27.
Tests of Gas Welded Structural Joints—H. H. Moss, May, pp. 36–40.
Tests of Nickel Steel Welds, T. K. McManus, Jan., pp. 16–20.
Tests of Welds—Structural Steel Report—Dec., pp. 38–40.
Tests of Welds as Affected by Technique—Nov., p. 43.
Tests of Welds in Mild Steel—Nov., p. 43.
Thermit Welding in the Steel Mill—J. H. Deppeler, May, pp. 5–14.
Training of Welders—Discussion of Training Welders for Piping Installations—Dec., pp. 26–28.
Truck—Welded—W. E. Farrell, March, p. 38.
Ventilating Equipment, Arc Welding of—W. L. Prout, June, pp. 5–6.
Welding Wire—Covered Electrodes—Dr. K. Baumbartel, Jan., p. 24.
Welding Wire—Research Work in Japan—T. Okamotó, July, pp. 33–37.
X-Ray Inspection of Welds—H. R. Isenburger, May, pp. 17–21.

INDEX TO AUTHORS

ADELSON, J. S.—Modern Electric Resistance Welded Pipe, Nov., pp. 9–13.
ALBERT, ODD—Eccentric Welded Connections, April, pp. 43–50.
AMERICAN BUREAU OF WELDING—Tests of Light Gauge Tanks, Feb., pp. 21–38; March, p. 17.
Committee on Welded Rail Joints, Aug., pp. 14–43.
Report of Structural Steel Welding Committee, Oct., pp. 25–42; Nov., pp. 18–40; Dec., pp. 38–50.
Report of Committee on Standard Tests for Welds, Nov., pp. 14–17.
AMERICAN WELDING SOCIETY—Code for Fusion Welding and Gas Cutting in Building Construction—Code I, Part A, Jan., pp. 33–41.
Proposed Specifications for Fusion Welding of Unfired Pressure Vessels, Jan., pp. 5–10.
Welding Progress in 1930, Feb., pp. 5–10.
Proposed Specifications for Fusion Welding of Pressure Vessels, March, pp. 11–13.
Welded Bridges and Buildings, June, pp. 27–34.
BARBER, S. L.—New Pipe Fittings for Welding—July, p. 38.
BAUMBARTEL, K.—Investigations on the Influence of Covered Electrodes on the Tensile Properties of Welded Seams, Jan., p. 24.
BESTLER, E. P.—Fabricating Sheet Metal by Arc Welding, March, pp. 5–7.
BOGGS, R. W.—Ornamental Iron Work in Demand, April, p. 37.
BONDY, OTTO—Regulations for Structural Welding in Germany, June, pp. 11–16.
BOOTH, E. C.—Production Welding by Oxy-Acetylene Process, March, pp. 24–26.
CANDY, A. M.—Manganese Steel Welding, May, p. 26.
Discussion of Paper "Yale Welded Buildings," Dec., p. 9.
Discussion of Paper "Welding vs. Castings," Dec., p. 17.
Discussion of Paper "Relief of Welding Strains by Annealing," Dec., p. 24.
CARTER, G. O.—Success of Oxy-Acetylene Welded Pipe Lines, March, pp. 21–24.
CHAPMAN, EVERETT—Maximum Stress: Its Influence on Cost and Service Life of a Structure, Sept., pp. 19–22.
New Washer Punch Press of All-Welded Rolled Steel Construction, Nov., pp. 43–44.
Discussion of paper "Welding vs. Castings," Dec., p. 17.
Discussion of paper "Maximum Stresses in Structures," Dec., p. 20.
CHING, YUE SANG—Welded Floors of Large Oil Storage Tanks, Nov., p. 13.
CHURCHWARD, A.—Manganese Steel Welding, May, pp. 24–25.
DAVID, E. V.—Tender Underframes Lengthened by Welding, April, p. 42.
DAVIS, A. F.—Structural Arc Welding—A Review of What Has Been Accomplished and Its Future, March, pp. 40–50.
732-Mile Pipe Line Is Welded with New Process, May, pp. 14–15.
Texas Bridge Features Arc Welded Battleship Deck Floor Construction, July, p. 37.
Arc Welding Makes Possible Steel Frame House of Practical Design, Aug., pp. 10–12.
Frame for Astronomical Telescope, Nov., p. 8.
Welding High Manganese Steel Frogs and Crossings, Dec., pp. 51–52.
